

## TOMUS II. (1979)

|  |     |
|--|-----|
| <i>Gerencsér L.</i> , Reduction of the on hand inventory by using transaction reporting system .....   | 3   |
| <i>Lakatos L.</i> , Non-preemptive service of a finite number of jobs .....  | 7   |
| <i>Kátai I. and Rahmy E.</i> , Computation of the determinant of five diagonal symmetric Toeplitz matrices .....   | 13  |
| <i>Molnarka D. i Farzan R.Kh.</i> , O primenenií neyavnykh raznostnykh skhem dlya resheniya sistem differentsial'nykh uravnenij parabolicheskogo tipa so slaboj nelinejnost'yu ..... | 23  |
| <i>László L.</i> , Matrix methods for finding roots of polynomials .....   | 29  |
| <i>Hunyadvári L.</i> , The $L$ -fuzzy Kleene theorem .....   | 39  |
| <i>Podkolzin A.S.</i> , Ob odnomernykh universal'nykh strukturakh .....  | 49  |
| <i>Varga L.</i> , An abstract graph walk algorithm .....   | 63  |
| <i>Jankó B.</i> , On the unitary theory of iteration methods for solving nonlinear operator equations considered in semiordeered spaces .....  | 85  |
| <i>Vértesi P.</i> , On approximation of hydrological functions .....   | 91  |
| <i>Ružička P.</i> , Space-time trade-offs in producing certain partial orders .....  | 97  |
| <i>Doha E.H.</i> , On the Chebyshev methods for the numerical solution of the third boundary value problem for parabolic equations .....   | 115 |
