Technikai szerkesztő:
Dr. IVÁNYI ANTAL
A kiadásért felelős: Eötvös Loránd Tudományegyetem rektora
A kézirat nyomdába érkezett: 1984. április Megjelent: 1985. október
Terjedelem: 11,3 A/5 ív. Példányszám: 1050
Készült monó- és kéziszedéssel, íves magasnyomással,
az MSZ 5601–59 és 5602–55 szabványok szerint
84.549. Állami Nyomda, Budapest
Felelős vezető: Mihalek Sándor igazgató

ANNALES UNIVERSITATIS SCIENTIARUM BUDAPESTIENSIS
DE ROLANDO EÖTVÖS NOMINATAE

SECTIO COMPUTATORICA

Publication: yearly 1 or 2 issues (about 150 p. each) are scheduled to appear, which are available – mainly through exchange – from the library of the Dept. of Computer Science of the Eötvös University, H-1088, Budapest, Múzeum krt. 6–8. Főép. I. em.

Editorial Policy: This journal will publish research and, in special cases, survey papers treating problems from a broad field of applied mathematics written with mathematical precision, giving priorities to articles connected with the activities and interests within the departments of applied mathematics of the Eötvös University. The areas of main interest are: classical numerical analysis, modern theories of algorithms of approximation, their optimization both in deterministic and stochastic cases, summation of series, modelling and simulation, mathematical system theory, dynamic decision processes, estimations of computational complexity, theories of automata, languages and systems programming. Reviews of new books, both from and outside Hungary, will be published also.

Instruction for authors. Manuscripts should be submitted in two exemplars (one of them original) – written in English, German or Russian, and prepared in form as the ones already appeared – to the editor-in-chief

I. KÁTAI

Dept. of Computer Science, Eötvös University, H-1445 Budapest 8, Pf. 323.

The authors will receive 50 reprints free of charge.
