

INDEX

*Kátai, I.*: Laudation to Dr. Bui Minh Phong on his 60th anniversary ..... 5

List of publications of Bui Minh Phong ..... 13

*Chakraborty, K. and Mehta, J.*: On completely multiplicative complex valued functions ..... 19

*Trinh Tuan*: A novel polyconvolution for the Fourier sine, Fourier cosine and the Kontorovich-Lebedev integral transforms and applications ... 25

*Indlekofer, K.-H. and Kátai, I.*: Some remarks on Beurling type integers generated by the set of shifted primes ..... 43

*DeKoninck, J.-M. and Kátai, I.*: The distribution of additive functions in short intervals on the set of shifted primes having a fixed number of prime factors ..... 57

*Ha Huy Khoai, Vu Hoai An and Nguyen Xuan Lai*: Value sharing problem and uniqueness for  $p$ -adic meromorphic functions and their derivatives ..... 71

*Szili, L. and Tóth, J.*: Partial fraction decomposition of some meromorphic functions ..... 93

*Lakatos, L.*: The generating function of ergodic distribution in the  $M/G/1$  system with vacation at the beginning of the busy period ... 109

*Csajbók, T., Farkas, G. and Kasza, J.*: Sieving for large twin primes and Cunningham chains of length 2 of the second kind ..... 117

*Germán, L. and Kátai, I.*: Distribution of the values of  $q$ -additive functions on some multiplicative semigroups ..... 129

*Germán, L. and Kátai, I.*: Distribution of the values of  $q$ -additive functions on some multiplicative semigroups II., ..... 147

*Indlekofer, K.-H. and Kaya, E.*: The three-series theorem in additive arithmetical semigroups ..... 161

*Sitaramaiah, V. and Rajmohan, G.*: Rearick's isomorphism and a characterization of  $\psi$ -additive functions ..... 183

<i>Slyvka-Tylyshchak, A.:</i> Justification of the Fourier method for equations of homogeneous string vibration with random initial conditions . . . . .	211
<i>Ivić, A. and Wenguang Zhai:</i> A mean value result for the fourth moment of $ \zeta(\frac{1}{2} + it) $ II. . . . .	233
<i>Kátai, I.:</i> On the prime divisors of the Euler Phi and the sum of divisors functions . . . . .	245
<i>Chakraborty, K., Kátai, I. and Bui Minh Phong:</i> On additive functions satisfying some relations . . . . .	257
<i>Chakraborty, K., Kátai, I. and Bui Minh Phong:</i> On the values of arithmetic functions in short intervals . . . . .	269
<i>Krasniqi, Xh.Z.:</i> Some further results on the degree of approximation of continuous functions . . . . .	279
<i>Indlekofer, K.-H., Kátai, I. and Klesov, O.I.:</i> On random arithmetical functions II. . . . .	295
<i>Barát, A., Indlekofer, K.-H. and Kaya, E.:</i> Two-series theorem in additive arithmetical semigroups . . . . .	309
Correction to volume 26 . . . . .	319
