

ANNALES UNIVERSITATIS SCIENTIARUM  
BUDAPESTINENSIS  
DE ROLANDO EÖTVÖS NOMINATAE  
SECTIO COMPUTATORICA

**Publication.** Yearly 2 issues are scheduled to appear, which are available from the Department of Computer Algebra of the Eötvös Loránd University, Budapest, XI. Pázmány Péter sét. 1/C.

**Editorial policy.** This journal publishes research and, in special cases, survey papers treating problems from a broad field of applied mathematics and computer science written with mathematical precision, giving priorities to articles connected with the activities and interests within the departments of applied mathematics and computer science of the Eötvös University. The areas of main interest are: classical numerical analysis, modern theories of algorithms of approximation, their optimization both in deterministic and stochastic cases, summation of series, modelling and simulation, mathematical system theory, estimations of computational complexity, theory of automata, languages and system programming. Reviews of new books, both from and outside Hungary, will be also published.

**Instructions for authors.** Manuscripts should be submitted in two exemplars or in electronic form (the TEX and PDF files) - written in English, German or French and prepared in form as the ones already appeared - to the editor-in-chief
