

## INDEX OF VOLUME 50

<i>Castillo, E.</i> : To the memory of Professor János Galambos .....	9
<i>Fridli, S. and L. Gergó</i> : To the memory of Professor Gisbert Stoyan .....	45
List of publications of Gisbert Stoyan .....	49
<i>Arnold, B. C. and J. A. Villasenor</i> : An exponential characterization and related conjectures .....	57
<i>Congera, A. and S. Nyandwi</i> : Moyenne de la fonction de Piltz sur les entiers sans facteur premier dans un intervalle .....	63
<i>De Koninck, J.-M. and I. Kátai</i> : Digit patterns in real numbers created from permutations .....	93
<i>De Koninck, J.-M., I. Kátai and B. M. Phong</i> : Characterising some triplets of completely multiplicative functions .....	101
<i>De Koninck, J.-M. and A. A. B. Razafindrasoanaivolala</i> : On the middle divisors of an integer .....	113
<i>Fridli, S. and F. Schipp</i> : Discrete rational biorthogonal systems on the disc .....	127
<i>Gomes, M.I.</i> : Revisiting rates of convergence and penultimate approximations for extremes .....	135
<i>Hegedüs, C. J.</i> : A note on the solution of narrow-banded Toeplitz systems .....	151
<i>Indlekofer, K.-H.</i> : On uniformly summable functions and a problem of Halmos in ergodic theory .....	157
<i>Indlekofer, K.-H., I. Kátai, O. Klesov and B. M. Phong</i> : A remark on uniformly distributed functions .....	167
<i>Indlekofer, K.-H., I. Kátai and B. M. Phong</i> : On some uniformly distributed functions on the set of shifted primes .....	173
<i>Kanemitsu, S., R.-H. Liu and J. Ma</i> : Reduction modulo sim and universality .....	183

<i>Kiss, A. and K. Varga</i> : Comparing two quantum oracles using the Deutsch–Jozsa algorithm .....	199
<i>László, L.</i> : An inequality for the powers of triangle sides .....	219
<i>Lócsi, L. and Zs. Németh</i> : On the construction of $p$ -eigenvectors ....	231
<i>Móri, T. F. and G. J. Székely</i> : The earth mover’s correlation .....	249
<i>Németh, L. and A. Zempléni</i> : Matched bootstrap procedure for INAR(1) processes .....	269
<i>Simonelli, I. and L. D. Simonelli</i> : Local limit theorems for Poisson’s binomial in the case of infinite expectation .....	283

## BOOK REVIEW

<i>Lakatos, L, L. Szeidl and M. Telek</i> : Introduction to Queueing Systems with Telecommunication Applications. Second Edition (Reviewer: Imre Káta) .....	299
