

## INDEX OF VOLUME 54

Dedication on the occasion of Professor Emeritus Zoltán Daróczy's 85th birthday .....	15
Dedication on the occasion of Professor Emeritus Imre Kátaı's 85th birthday .....	17
<i>Kátaı, I.</i> : Continuation of the laudation to Professor Karl-Heinz Indlekofer on his 80th birthday .....	19
<i>Kátaı, I.</i> : Continuation of the laudation to Professor Jean-Marie De Koninck on his 75th birthday .....	33
<i>Kátaı, I.</i> : Continuation of the laudation to Professor Bui Minh Phong on his 70th birthday .....	51
<i>An, V.H, H.H. Khoai and N.D. Phuong</i> : Determining a meromorphic function by its preimages of finite sets .....	71
<i>Anh, P.Q.N. and T.N. Sinh</i> : The regularity index of $s$ fat points in projective space $\mathbb{P}^2$ , $s \leq 6$ .....	95
<i>Bóka, D., P. Burcsi and O. Ignéczı</i> : Numeration systems defined by addition rules .....	105
<i>Congera, A., J.P. Ntahomvukiye and S. Nyandwi</i> : Fonctions moyennes sur les entiers sans facteurs carrés et $y$ -friables .....	125
<i>Diamond, H.G.</i> : Comparing the Prime Number Theorem and the sum of the Moebius function .....	143
<i>Gonda, J.</i> : Discrete Fourier transform and automorphism .....	161
<i>Gut, A. and U. Stadtmüller</i> : Elephant random walks; a review .....	171
<i>Kaya, E.</i> : On some results of Indlekofer for multiplicative functions II. ....	199
<i>Kovács, A., G.Á. Németh and P. Sótér</i> : Integrating performance testing into continuous integration loops .....	211
<i>Laurinćikas, A. and D. Šiaućiūnas</i> : A remark on joint approximation by one Dirichlet series .....	233

<i>Letendre, P.</i> : Subsets of $\mathbb{F}_p^*$ with only small products or ratios .....	245
<i>Liptai, K. and L. Szalay</i> : Random inhomogeneous binary recurrences .....	253
<i>Phuong, N.T.H.</i> : The Fourier generalized convolutions on time scales $h\mathbb{N}^0$ and their applications .....	265
<i>Schipp, F.</i> : Convolution operators on the disk .....	281
<i>Stakėnas, V.</i> : The ring of arithmetical functions in the rational domain .....	295
<i>Steuding, J. and A.I. Suriajaya</i> : Mean-values associated with a generalized Schemmel function .....	307
<i>Thao, N.X. and H. Tung</i> : The $h$ -Fourier cosine-Laplace generalized convolution with a weight function .....	321
<i>Tuan, T.</i> : On solvability of Barbashin's type equation and initial value problem via the structure of generalized convolutions ...	341

## CORRECTION

<i>Khanh, B.M.M.</i> : Correction to my paper "Characterization of the identity function with an equation function" .....	363
--	-----
