INDEX OF VOLUME 55

Indlekofer, K.-H.: To the memory of Dr. Robert Wagner 3

Yamamuro, K.: Asymptotic behaviors of some arithmetic function associated with the von Mangoldt function 7

Boros, A.P., P. Lehotay-Kéry and A. Kiss: Performance impact of network security features on log processing with Spark 19

Fatlawi, H.K. and A. Kiss: Efficiency improvement of adaptive random forest using principal component analysis for mining data stream 39

Michalek, G.: Base N expressible numbers 49

Argyros, I.K., J. Jayaraman, J.A. John and S. Regmi: Extended Zabrejko theory of the Newton–Kantorovich iteration and the Pták–Potra error estimates 77

Anastassiou, G.A.: q-deformed and λ-parametrized hyperbolic tangent function based Banach space valued multivariate multi layer neural network approximations 97

Kátai, I.: Some old and new problems on arithmetical functions 133

Indlekofer, K.-H.: A new proof of a result of Wirsing for multiplicative functions 151

Alomari, Y. and M. Andó: An analysis of OPC UA communication with CNC turning machines: emphasis on synchronized data acquisition 175

Müllner, K.: Test of measures of pseudorandom binary sequences ... 191

Langlois, B.: À propos de l'équation fonctionnelle $f(m^2 + Dmn + n^2) = f(m)^2 + Df(m)f(n) + f(n)^2$ 209
