

INDEX

<i>L. Gerencsér</i> : Reduction of the on hand inventory by using transaction reporting system	3
<i>L. Lakatos</i> : Non-preemptive service of a finite number of jobs	7
<i>I. Kátai and E. Rahmy</i> : Computation of the determinant of five diagonal symmetric Toeplitz matrices	13
<i>Д. Молнарка, Р. Х. Фарзан</i> : О применении неявных разностных схем для решения систем дифференциальных уравнений параболического типа со слабой нелинейностью	23
<i>L. László</i> : Matrix methods for finding roots of polynomials	29
<i>L. Hunyadvári</i> : The L-fuzzy Kleene Theorem	39
<i>А. С. Подколзин</i> : Об одномерных универсальных однородных структурах ...	49
<i>L. Varga</i> : An abstract graph walk algorithm	63
<i>B. Jankó</i> : On the unitary theory of iteration methods for solving nonlinear operator equations considered in semiordered spaces	85
<i>P. Vértési</i> : On approximation of hydrological functions	91
<i>P. Ružička</i> : Space-time trade-offs in producing certain partial orders	97
<i>E. H. Doha</i> : On the Chebyshev methods for the numerical solution of the third boundary value problem for parabolic equations	115
