

INDEX

<i>Kása Z. and Támblea L.</i> : Binary trees and number of states in buddy systems	3
<i>Lakatos L.</i> : On systems with bulk arrival and group service	11
<i>Егорычев Г. П., Ивани А. М. и Макосий А. И.</i> : Анализ двух комбинаторных сумм, характеризующих скорость ЭВМ с блочной памятью	19
<i>Székelyhidi L.</i> : LP -approximation by splines	33
<i>Eissa R. P.</i> : Riemann boundary value problem and singular integral equations on a new class of functions	41
<i>Fawzy Th. and Ramadan Z.</i> : Spline approximations for a system of ordinary differential equations. II.	53
<i>Daróczy Z. and Káтай I.</i> : On differentiable additive functions	63
<i>Farkas M., Garay B., Szabó G., Szépkuti L. and V. Nagy I.</i> : Modelling of depth filtration	67
<i>Fawzy Th.</i> : (0, 2, 4) lacunary interpolation with g -splines	75
<i>Bassily N. L. and Ishak S.</i> : On L_1 -mean oscillating random variables	79
<i>Lischke G.</i> : Strenge Separation von NP und P unter Relativierung bei gleichzeitigem Kollaps von nichtdeterministischer zu deterministischer Exponentialzeit . . .	87
<i>Ковач А.</i> : Асимптотические разложения в случае аппроксимации обобщенным законом Пуассона	99
<i>Gönczi I. and Kálovics F.</i> : An iterative formula for special Chebyshev approximations	103
<i>Móri F. T.</i> : On the expectation of the maximum waiting time	111
<i>Zsigmond I.</i> : Mixed integer linear fractional programming by a branch and bound technique	117
<i>Kósa A. and Shamandy A.</i> : Discontinuous variational problems of higher order . . .	131
<i>Brauer W. and Vogler W.</i> : On routing constraints in packet switching networks .	139
<i>Shamandy A. and Varga Z.</i> : On an infinite-person dynamic coalition game	149
<i>Klafszky E. and Terlaky T.</i> : Remarks on the feasibility problem of oriented matroids	155
<i>Sonnevend Gy.</i> : Stabilization and acceleration of the ellipsoid method for the minimization of convex nonsmooth functions	159
