

LIST OF PUBLICATIONS

Jean-Marie De Koninck

Papers published in refereed journals

- [1] On a class of arithmetical functions, *Duke Math. J.*, **39** (1972), 807–818.
- [2] Sums of quotients of additive functions, *Proc. Amer. Math. Soc.*, **44** (1974), 35–38.
- [3] Note on a function similar to $n!$, *Math. Mag.*, **47** (1974), 226.
- [4] Sums of reciprocals of additive functions, *Acta Arith.*, **25** (1974), 159–164. (with J. Galambos)
- [5] Remarque sur un article de T.M. Apostol, *Bull. Can. Math.*, **20** (1977), 77–88. (with A. Mercier)
- [6] Some remarks on additive functions, *J. Nat. Sc. Math.*, **17** (1977), 31–41.
- [7] Sums taken over $n \leq x$ with prime factors $\leq y$ of $z^{\Omega(n)}$, and their derivatives with respect to z , *J. Indian Math. Soc.*, **42** (1978), 353–365. (with D. Hensley)
- [8] An asymptotic formula for reciprocals of logarithms of certain multiplicative functions, *Bull. Can. Math.*, **21** (1978), 409–413. (with A. Ivić)
- [9] Sums of reciprocals of certain additive functions, *Manuscripta Math.*, **30** (1980), 329–341. (with A. Ivić)
- [10] Reciprocals of certain large additive functions, *Bull. Can. Math.*, **24** (1981), 225–231. (with P. Erdős and A. Ivić)
- [11] Somme de réciproques de grandes fonctions additives, *Publ. Inst. Math. Belgrade*, **49** (1984), 41–48. (with A. Ivić)
- [12] The distribution of the average prime divisor of an integer, *Archiv der Math.*, **43** (1984), 37–43. (with A. Ivić)

- [13] On the distance between consecutive divisors of an integer, *Bull. Can. Math.*, **29** (1986), 208–217. (with A. Ivić)
- [14] Sums involving the largest prime divisor of an integer, *Acta Arith.*, **48** (1987), 1–8. (with R. Sitaramachandrarao)
- [15] The intermediate prime divisors of integers, *Proc. Amer. Math. Soc.*, **101** (1987), 213–216. (with J. Galambos)
- [16] Some randomly selected arithmetical sums, *Acta Math. Hung.*, **52** (1988), 37–43. (with J. Galambos)
- [17] Sums involving the largest prime divisor of an integer II, *Indian J. Pure and Applied Math.*, **19** (1988), 990–1004. (with R. Sitaramachandrarao)
- [18] Les fonctions arithmétiques et le plus grand facteur premier, *Acta Arith.*, **52** (1989), 25–48. (with Mercier)
- [19] The average prime divisor of an integer in short intervals, *Archiv der Math.*, **52** (1989), 440–448. (with A. Ivić)
- [20] Additive functions and the largest prime factor of integers, *J. Number Theory*, **33** (1989), 293–310. (with I. Kátai and A. Mercier)
- [21] Fonctions arithmétiques tronquées, *Acta Math. Hung.*, **56** (1990), 211–224. (with A. Mercier)
- [22] Continuity module of the distribution of additive functions related to the largest prime factors of integers, *Archiv der Math.*, **55** (1990), 450–461. (with I. Kátai and A. Mercier)
- [23] Random sums related to prime divisors of an integer, *Publi. Inst. Math. (Belgrade)*, **62** (1990), 7–24. (with A. Ivić)
- [24] On the average prime factor of an integer and some related problems, *Ricerche di Matematica*, **39** (1990), 131–140. (with A. Ivić)
- [25] Additive functions monotonic on the set of primes, *Acta Arith.*, **57** (1991), 41–68. (with I. Kátai and A. Mercier)
- [26] Additive functions monotonic on the set of primes II, *J. Can. Math.*, **43** (1991), 705–720. (with I. Kátai and A. Mercier)
- [27] On the normal growth of prime factors of integers, *J. Can. Math.*, **44** (1992), 1121–1154. (with I. Kátai and A. Mercier)
- [28] Sur les plus grands facteurs premiers d'un entier, *Monatshefte für Mathematik*, **116** (1993), 13–37.

- [29] On the largest prime divisors of an integer, In: *Proceedings of the Conference on Extreme Value Theory and Applications*, Vol. 1, Gaithersburg Maryland, 1994, 447–462.
- [30] Arithmetic characterization of regularly varying functions, *Ricerche di Matematica*, **44** (1995), 41–64. (with A. Ivić)
- [31] On the distribution of subsets of primes in the prime factorization of integers, *Acta Arithmetica*, **72** (1995), 169–200. (with I. Kátai)
- [32] Moyennes sur certains ensembles de diviseurs d’un entier, *L’Enseignement mathématique*, **42** (1996), 97–123. (with J. Grah)
- [33] Arithmetic functions defined on sets of primes of positive density, *Mathematica Balkanica*, **10** (1996), 1–15. (with A. Ivić)
- [34] A new characteristic of the identity function, *J. of Number Theory*, **63** (1997), 325–338. (with I. Kátai and B.M. Phong)
- [35] On a sum of divisors problem, *Publ. Inst. Math. Belgrade*, **64(78)** (1998), 9–20. (with A. Ivić)
- [36] Arithmetic functions and weighted averages, *Colloquium Mathematicum*, **79** (1999), 249–272. (with J. Grah)
- [37] Ces nombres qui nous fascinent, dans *Mathématiques d’hier et d’aujourd’hui*, Collection ASTROÏDE, 69–90, MODULO, 2000. (with B. Hodgson)
- [38] On the unimodal character of the frequency function of the largest prime factor, *Colloquium Mathematicum*, **88**, no. 2, (2001), 159–174. (with J. Sweeney)
- [39] On a very thin sequence of integers, *Annales Univ. Sci. Budapest., Sect. Comp.*, **20** (2001), 157–177. (with N. Doyon)
- [40] On the frequency of k -deficient numbers, *Publicationes Mathematicae Debrecen*, **61** (2002), 595–602. (with I. Kátai)
- [41] Sur la loi de répartition du k -ième facteur premier d’un entier, *Math. Proc. Cambridge Philo. Soc.*, **133** (2002), no. 2, 191–204. (with G. Tenenbaum)
- [42] On the solutions of $\sigma_2(n) = \sigma_2(n + \ell)$, *Annales Univ. Sci. Budapest., Sect. Comp.*, **21** (2002), 127–133.
- [43] Ces mathématiques qui nous font grandir!, *Bull. Assoc. Math. Québec*, **42** (2002), 17–26.

- [44] On the number of Niven numbers up to x , *The Fibonacci Quarterly*, **41**, Nov. 2003, 431–440. (with N. Doyon)
- [45] On the counting function for the Niven numbers, *Acta Arithmetica*, **106** (2003), 265–275. (with N. Doyon and I. Kátai)
- [46] À propos de l'indice de composition des nombres, *Monatshefte für Mathematik*, **139** (2003), 151–167. (with N. Doyon)
- [47] On a thin set of integers involving the largest prime factor function, *International Journal of Mathematics and Mathematical Sciences*, **19** (2003), 1185–1192. (with N. Doyon)
- [48] Large and small gaps between consecutive Niven numbers, *Journal of Integer Sequences*, **6** (2003), Article 03.2.5. (with N. Doyon)
- [49] On a theorem of Daboussi related to the set of Gaussian integers, *Mathematica Pannonica*, **14** (2003), 267–272. (with N. Bassily and I. Kátai)
- [50] On the difference of values of the kernel function at consecutive integers, *International Journal of Mathematics and Mathematical Sciences*, **67** (2003), 4249–4262. (with F. Luca)
- [51] Computational problems and queries in number theory, *Annales Univ. Sci. Budapest., Sect. Comp.*, **23** (2004), 149–161.
- [52] Sur la proximité des nombres puissants, *Acta Arithmetica*, **114** (2004), 149–157. (with F. Luca)
- [53] On the multiplicative group generated by shifted binary quadratic forms, *Annales Univ. Sci. Budapest., Sect. Comp.*, **47** (2004), 17–28. (with I. Kátai)
- [54] On the distribution modulo 1 of the values of $F(n) + \alpha\sigma(n)$, *Publicationes Mathematicae Debrecen*, **66** (2005), 121–128. (with I. Kátai)
- [55] Powerful numbers in short intervals, *Bulletin of the Australian Math. Soc.*, **71**(1) (2005), 11–16. (with F. Luca and I.E. Shparlinski)
- [56] On the mean value of the index of composition of an integer, *Monatshefte für Mathematik*, **145**(2) (2005), 131–144. (with I. Kátai)
- [57] Integers representable as the sum of powers of their prime factors, *Functiones et Approximatio*, **23** (2005), 57–72. (with F. Luca)
- [58] On strings of consecutive economical numbers of arbitrary length, *Integers*, **5** (2005), #A5. (with F. Luca)

- [59] On the average of $d(n)\omega(n)$ and similar functions on short intervals, *Annales Univ. Sci. Budapest., Sect. Comp.*, **25** (2005), 131–142. (with I. Kátai)
- [60] A Schinzel Hypothesis H type of result for economical numbers, *Annales des Sciences mathématiques du Québec*, **29(1)** (2005), 35–39. (with F. Luca and L. Szalay)
- [61] Integers divisible by the sum of their prime factors, *Mathematika*, **52(1-2)** (2005), 69–77 (2006). (with F. Luca)
- [62] On the local distribution of certain arithmetic functions, *Lietuvos Matematikos Rinkinys*, **46** (2006), 315–331. (with I. Kátai)
- [63] Positive integers n whose Euler function is a power of their kernel function, *Rocky Mountain Journal of Mathematics*, **36(1)** (2006), 81–96. (with F. Luca and A. Sankaranarayanan)
- [64] Counting the number of economical numbers, *Publicationes Mathematicae Debrecen*, **68** (2006), 97–113. (with F. Luca)
- [65] A consequence of a theorem of Filaseta, *Annales des Sciences mathématiques du Québec*, **30** (2006), 55–62. (with I. Kátai, and M.V. Subbarao)
- [66] Sums of reciprocals of additive functions running over short intervals, *Colloquium Mathematicum*, **107** (2007), 317–326. (with I. Kátai)
- [67] Partial sums of powers of prime factors, *Journal of Integer Sequences*, **10** (2007), Article 07.1.6. (with F. Luca)
- [68] Positive integers divisible by the product of their non zero digits, *Portugaliae Mathematica*, **64(1)** (2007), 75–85. (with F. Luca)
- [69] On the index of composition of integers from various sets, *Archiv der Mathematik*, **88** (2007), 524–536. (with I. Kátai and M.V. Subbarao)
- [70] On the composition of the Euler function and the sum of the divisors function, *Colloquium Mathematicum*, **108** (2007), 31–51. (with F. Luca)
- [71] Sur la quantité de nombres économiques, *Acta Arithmetica*, **127** (2007), 125–143. (with N. Doyon and F. Luca)
- [72] Distribution of arithmetic functions on certain subsets of integers, *Rocky Mountain Journal of Mathematics*, **37(5)** (2007), 1459–1482. (with I. Kátai)

- [73] On the set of Wieferich primes and of its complement, *Annales Univ. Sci. Budapest., Sect. Comp.*, **27** (2007), 3–13. (with N. Doyon)
- [74] On an estimate of Kanold, *Int. J. Math. Anal.*, 5/8 (2007), no. 1-12, 9–18. (with I. Kátai)
- [75] Integers divisible by sums of powers of their prime factors, *J. Number Theory*, **128**, no.3 (March), (2008), 557–563. (with F. Luca)
- [76] Positive integers n such that $\sigma(\phi(n)) = \sigma(n)$, *Journal of Integer Sequences*, **11** (2008), no.1 (Jan), Article 08.1.5, 14 pp. (with F. Luca)
- [77] On the distribution of the number of digits needed to write the factorization of an integer, *Annales Univ. Sci. Budapest., Sect. Comp.*, **28** (2008), 197–212. (with N. Doyon and P. Letendre)
- [78] On the difference of arithmetic functions at consecutive arguments, *Anatomy of Integers*, CRM Proceedings and Lecture Notes, AMS, Vol 46 (June) (2008), 179–189. (with F. Luca)
- [79] Counting the number of twin Niven numbers, *Ramanujan J.*, **17(1)** (2008), 89–105. (with N. Doyon and I. Kátai)
- [80] On strings of consecutive integers with a distinct number of prime factors, *Proc. Amer. Math. Soc.*, **137(5)** (2009), 1585–1592. (with J. Friedlander and F. Luca)
- [81] On the index of composition of the Euler function, *Journal of Australian Mathematics*, **86(2)** (2009), 155–167. (with F. Luca)
- [82] The product of exponents in the factorization of consecutive integers, *Mathematika*, **55(1-2)** (2009), 59–65. (with F. Luca)
- [83] Esthetic numbers, *Annales des Sciences mathématiques du Québec*, **33(2)** (2009), 155–164. (with N. Doyon)
- [84] Some remarks on a paper of L. Toth, *Journal of Integer Sequences*, **13(1)** (2010), Article 10.1.2, 26 pages. (with I. Kátai)
- [85] On the coprimality of some arithmetic functions, *Publications de l'Institut Mathématique*, **87** (2010), 121–128. (with I. Kátai)
- [86] On sums of powers of prime factors of an integer, *Annales Univ. Sci. Budapest., Sect. Comp.*, **32** (2010), 13–21. (with F. Luca)
- [87] On a theorem of Daboussi related to the set of Gaussian integers II, *Mathematica Pannonica*, **21(2)** (2010), 207–213. (with I. Kátai)

-
- [88] Exponential sums involving the largest prime factor function, *Acta Arithmetica*, **146** (2011), 233–245. (with I. Kátai)
 - [89] On the local distribution of the number of prime factors of $(n, \varphi_k(n))$, *Advances and Applications in Mathematical Sciences* **9(1)** (2011), 71–83. (with I. Kátai)
 - [90] Powerful values of quadratic polynomials, *Journal of Integer Sequences*, **14(3)** (2011), Article 11.3.3, 11 pages. (with N. Doyon and F. Luca)
 - [91] Arithmetic functions evaluated at polynomial values, *Annales. Univ. Sci. Budapest., Sect. Comp.*, **34** (2011), 95–114. (with N. Doyon and I. Kátai)
 - [92] On the asymptotic value of the irrational factor, *Annales des Sciences Mathématiques du Québec* **35(1)** (2011), 117–121. (with I. Kátai)
 - [93] Construction of normal numbers by classified prime divisors of integers, *Functiones et Approximatio*, **45(2)** (2011), 231–253. (with I. Kátai)
 - [94] Arithmetic functions and their coprimality, *Functiones et Approximatio*, **45(1)** (2011), 55–66. (with I. Kátai)
 - [95] On the distance between smooth numbers, *Integers*, **11** (2011), #A25, 1–22. (with N. Doyon)
 - [96] On a problem on normal numbers raised by Igor Shparlinski, *Bulletin of the Australian Mathematical Society*, **84(2)** (2011), 337–349. (with I. Kátai)
 - [97] On the truncated kernel function, *Journal of Integers Sequences*, **15(3)** (2012), Article 12.3.2, 17 pages. (with I. Diouf and N. Doyon)
 - [98] Normal numbers created from primes and polynomials, *Uniform Distribution Theory*, **7(2)** (2012), 1–20. (with I. Kátai)
 - [99] Exponential sums and arithmetic functions at polynomial values, *Lithuanian Mathematical Journal*, **52(2)** (2012), 138–144. (with I. Kátai)
 - [100] Some new methods for constructing normal numbers, *Annales des Sciences Mathématiques du Québec*, **36(2)** (2012), 349–359. (with I. Kátai)
 - [101] Distribution of consecutive digits in the q -ary expansions of some subsequences of integers II, *Analytic and Probabilistic Methods in Number Theory*, 101–110, TEV, Vilnius, July 2012. (with I. Kátai)
 - [102] Construction of normal numbers by classified prime divisors of integers II, *Funct. Approx. Comment. Math.*, **49(1)** (2013), 7–27. (with I. Kátai)

- [103] On integers for which the sum of divisors is the square of the squarefree core, *Journal of Integer Sequences*, **15(7)** (2012), Article 12.7.5, 12 pages. (with K.A. Broughan, I. Kátai and F. Luca)
- [104] On the distribution of the values of additive functions over integers with a fixed number of distinct prime factors, *Albanian Journal of Mathematics*, **6(2)** (2012), 75–86. (with I. Kátai)
- [105] The distribution of additive functions in short intervals on the set of shifted integers having a fixed number of prime factors, *Annales Univ. Sci. Budapest., Sect. Comp.*, **38** (2012), 57–70. (with I. Kátai)
- [106] Exponential sums involving the k -th largest prime factor function, *Journal of Integer Sequences*, **16(2)** (2013), Article 13.2.16, 13 pages. (with I. Kátai)
- [107] Construction of normal numbers using the distribution of the k -th largest prime factor, *Bull. Australian Mathematical Society*, **88(1)** (2013), 158–168. (with I. Kátai)
- [108] Using large prime divisors to construct normal numbers, *Annales Univ. Sci. Budapest., Sect. Comp.*, **39** (2013), 45–62. (with I. Kátai)
- [109] Prime-like sequences leading to the construction of normal numbers, *Funct. Approx. Comment. Math.*, **49(2)** (2013), 291–302. (with I. Kátai)
- [110] The uniform distribution mod 1 of sequences involving the largest prime factor function, *Siauliai Math. Semin.*, **8(16)** (2013), 117–129. (with I. Kátai)
- [111] On the middle prime factor of an integer, *Journal of Integer Sequences*, **16(5)** (2013), Article 13.5.5, 10 pages. (with F. Luca)
- [112] Consecutive integers divisible by the square of their largest prime factors, *Journal of Combinatorics and Number Theory*, **5(2)** (2013), 81–93. (with N. Doyon and F. Luca)
- [113] Exponential sums involving arithmetic functions and shifted primes, *Journal of Combinatorics and Number Theory*, **6(2)** (2014), 77–84. (with I. Kátai)
