Dedication
On the occasion of
Professor Emeritus Imre Kátai's 85th birthday

Professor Imre Kátai is the founding editor-in-chief of our journal, *Annales Univ. Sci. Budapest., Sect. Comp.* As a result of his effective and versatile management and organizing activities, the journal provided publication opportunities to the Hungarian and international mathematical community in several important areas.

His mathematical work is related to number theory. His main research area is analytic and probability number theory, in which he achieved his most important and profound results. His accomplishments in the field of fractal geometry are also significant. So far, he has published more than 440 scientific papers in international journals.

About his scientific performance and publication activity a detailed description was published in this journal **28** (2008) dedicated to his 70th birthday, **40** (2013) dedicated to his 75th birthday, and **47** (2018) dedicated to his 80th birthday.

Furthermore, in the last five years, he has engaged in a diverse and impressive publishing activity with Hungarian and foreign co-authors, has published about 35 papers.

On behalf of the Editorial Board, we wish him good health and several cheerful, creative years.
