

INDEX OF VOLUME 59

<i>Káta</i> , <i>I.</i> : To the memory of Professor Nader Labib Bassily	3
<i>Sinh</i> , <i>T. N. and P. Quy</i> : The regularity index of seven almost equimultiple points in projective space $\mathbb{P}^4$	9
<i>Argyros</i> , <i>I. K., D. Sharma and C. Argyros</i> : Broadening the convergence domain of the modified Weerakoon–Fernando scheme for equations in Banach spaces	25
<i>Anastassiou</i> , <i>G. A.</i> : Infinitely many concrete multiple-composite quantitative approximations by different Kantorovich–Shilkret neural network operators	47
<i>De Koninck</i> , <i>J.-M. and M. Moineau</i> : Searching for consecutive integers divisible by a power of their largest prime factor	67
<i>Hasanalizade</i> , <i>E.</i> : Multiplicative functions which are additive on some automatic sequences	95
<i>Soltani</i> , <i>F.</i> : Linear canonical Sturm–Liouville Hausdorff and convolution type operators	105
<i>Káta</i> , <i>I. and B. M. Phong</i> : Correction of our paper "On the iterates of some multiplicative functions"	129
<i>De Koninck</i> , <i>J.-M. and I. Káta</i> : Exponential sums and arithmetic functions running on subintervals	133
<i>Indlekofer</i> , <i>K.-H.</i> : Remarks on a result of Hardy	141
<i>Farkas</i> , <i>G., P. Karakai and P. Magyar</i> : Factor-reduced matrix factorization with a new initialization method	149
<i>Káta</i> , <i>I. and B. M. Phong</i> : Directed graphs defined by prime divisors of polynomial values	167
<i>Nguyen</i> , <i>H. T., S. T. Nguyen and H. A. K. Ong</i> : Suzuki-type fixed point theorem in S_N -metric spaces: A strong b -metric approach	181
